

Implement coupons filter

Implement a javascript function filter a copons based on value on the creteria greater than and exact match

Data

```
const data = [
  {
    id: 1,
    coupon: 'NEW40',
    created_at: 1754365319843,
    value: 2
  }, {
    id: 2,
    coupon: 'NEW40',
    created_at: 1754365319843,
    value: 2
  }, {
    id: 3,
    coupon: 'NEW40',
    created_at: 1754365319843,
    value: 3
  }, {
    id: 4,
    coupon: 'NEW40',
    created_at: 1754365319843,
    value: 4
  }, {
    id: 5,
    coupon: 'NEW40',
    created_at: 1754365319843,
    value: 12
  }
]
```

Example 1

```
function coponsFilters(coupons, value) {
  // code here
}

//Input
const result = coponsFilters(data, { greaterThan: 2 })
//Output:
[
  {
    id: 3,
    coupon: 'NEW40',
```

```
    created_at: 1754365319843,
    value: 3
  }, {
    id: 4,
    coupon: 'NEW40',
    created_at: 1754365319843,
    value: 4
  }, {
    id: 5,
    coupon: 'NEW40',
    created_at: 1754365319843,
    value: 12
  }
]
```

Example 2

```
function coponsFilters(coupons, value) {
  // code here
}

//Input
const result = coponsFilters(data, { isEqual: 2 })
//Output:
[
  {
    id: 1,
    coupon: 'NEW40',
    created_at: 1754365319843,
    value: 2
  }, {
    id: 2,
    coupon: 'NEW40',
    created_at: 1754365319843,
    value: 2
  }
]
```
