

Filter inappropriate comment

Create a function to filter comments from bannedWords and return as a array of items

```
const comments = ["Very useful tutorial, thank you so much!", "React is not a damn framework, it's a LIBRARY",  
  "Why you put bloody kitten pictures in a tech tutorial is beyond me!",  
  "Which one is better, React or Angular?", 'There is no "better", it depends on your use case, DAMN YOU'];  
const bannedWords = ['bloody', 'damn'];
```

Input:

```
const result = filterComments(comments, bannedWords);  
console.log(result);
```

Output:

```
[  
  "Very useful tutorial, thank you so much!",  
  "Which one is better, React or Angular?"  
]
```
